## E. REFERENCES

References should be numbered consecutively in the order in which they are first mentioned in the text (not in alphabetic order). Identify references in text, tables, and legends by Arabic numerals in parenthesis/bracket like- [1]. References cited only in tables or figure legends should be numbered in accordance with the sequence established by the first identification in the text of the particular table or figure. Use the style of the examples below, which are based on the formats used by the NLM in Index Medicus. The titles of journals should be abbreviated according to the style used in Index Medicus. Use complete name of the journal for non-indexed journals. Avoid using abstracts as references. Information from manuscripts submitted but not accepted should be cited in the text as "unpublished observations" with written permission from the source. Avoid citing a "personal communication" unless it provides essential information not available from a public source, in which case the name of the person and date of communication should be cited in parentheses in the text. For scientific articles, contributors should obtain written permission and confirmation of accuracy from the source of a personal communication. The commonly cited types of references are shown here, for other types of references such as electronic media, newspaper items, etc. please refer to ICMJE Guidelines (<http://www.icmje.org>).

### For Website:

Last name, First name. "Article Title." *Website Title*. Publisher of Website, Day Month Year article was published. Web. Day Month Year article was accessed. <URL>.

### **Short Communication**

The journal publishes exciting findings, preliminary data or studies that did not yield enough information to make a full paper as short communications. These have the same format requirements as full papers but are only up to 5 pages in length. Short Communications should not have subtitles such as Introduction, Materials and Methods, Results and Discussion - all these have to be merged into the running text. Short Communications preferably should have only 3-4 illustrations.

### **Review Articles**

Should be about 18 pages long, contain up-to-date information, comprehensively cover relevant literature and preferably be written by scientists who have in-depth knowledge on the topic. All format requirements are same as those applicable to full papers. Review articles need not be divided into sections such as Materials and Methods and Results and Discussion, but should definitely have an Abstract and Introduction, if necessary.

**Conflict of interest statement:** It must be declared by authors.

### **Gallery Proofs/Draft copy:**

Galley proofs/draft copy would be sent unless indicated otherwise to the corresponding author. It is the responsibility of the corresponding author to ensure that the galley proof is to be returned without delay with correction (if any). The authors are responsible for the contents appeared in their published manuscripts.

**The editorial board reserves right to condense or make necessary changes in the length of manuscript.**

### **Corresponding Author's Biography: (Optional)**

As per some author's request, we are capturing the photograph and short summary of the corresponding author in the published article. It is not compulsory and not part of our author's guideline, it is optional only.

Authors (corresponding author) who interested to keep their photograph and short summary in their upcoming article, they can send their passport size colour photograph with good clarity (scan or image format) and their short summary to our mail id in word format along with your article to **info.jberr@gmail.com**. We will add this author short summary at the end of the article (last page).

### **PUBLICATION PROCESS**

1. After receiving author(s) manuscript, the author will receive a confirmation e-mail within one or two working days. If you have trouble in receiving or finding confirmation e-mail, kindly check your junk e-mails folder or put your complaints to the editor of the journal via e-mail.
2. We are using double blind peer-review system in which identity of author(s) remain anonymous to the reviewers (and vice versa) to make the review process fair. The review process may take 07 days to 10 days.

**\* Journal of Biological Engineering Research and Review (JBERR) is an online journal And thus authors should not expect the printed copies of the journal.**
